

## This time, more than ever, we need your assistance!

The provincial government is making big changes to our Alberta Healthcare System. Their actions over the past 12 months have consistently undermined the effectiveness and proper functioning of our public health system.

### Actions you can take right now:

- Join our Community Action Teams!
- Call our office to get your campaign window sign
- Print off our petition
- Write to, call, or meet with your MLA, our Health & Wellness Minister, our Premier
- Write a letter to the editor
- Organize a Townhall meeting
- Organize a Rally in your town! (let the Campaigner know about the details about these last two actions!)

There is nothing more Canadian than Public Medicare

Contact us to get involved today!
